

POEP

FOURTH EDITION

Perinatal Orientation & Education Program

Helping you reduce risk, increase efficiency and promote optimal outcomes while saving your facility time and money!

**NEW
FOR 2017!**

AWHONN's Perinatal Orientation and Education Program, Fourth Edition (POEP4):

- Reduces risk and errors
- Increases staff efficiency
- Provides consistency in care
- Drives better patient outcomes
- Improves staff competency
- Builds the knowledge and skills of your team

POEP4 includes everything you need to provide quality, evidence-based education to all members of your perinatal nursing staff. POEP is designed to orient nurses new to the perinatal clinical setting and provide continued education for experienced perinatal nurses.

- POEP4 is online and fully narrated which allows educators to use a blended approach to learning—both self-study and instructor-led. POEP helps to establish consistent provision of high-quality care while reducing patient risk; increases staff efficiency; and promotes optimal obstetric outcomes.
- **Save money and time!** Subject matter experts updated content with evidence-based practice and current professional standards of care. This in-depth curriculum includes case scenarios, knowledge checks, pre/posttests, participant handouts, instructor speaker notes, references, and manuals for administrators and participants. This saves healthcare systems time and money.
- Free access for 50 participants to the online learning program and the opportunity to earn up to 67.0 CNE contact hours.

Less than \$100 per nurse, per year.

Perinatal Orientation and Education Program, Fourth Edition (POEP4)

ITEM: POEP4-17 Institutional Price: \$4,950.00 (S/H included; no purchase orders)
